Annual Report.

As God's mercies are renewed to us every morning, so our obligation to do good to others is of daily recurrence. Great sameness, therefore, must mark all the operations of the Society that takes the blind under its kindly care, and teaches and sustains them on their darkened way through life. But though a familiar work, it is a blessed work; and even if less successful than this has proved to be, would be worthy of all our labor. Great success, however, has crowned our efforts, and the duty of preparing the Annual Report is made pleasant by the account to be given of the amount of work accomplished by inmates of the Home, and their general good health and contentment. A new branch of industry has been introduced, and a sewing machine has been bought, which some of the women can operate on with great success, preparing and even finishing off the garments with perfect neatness. Their efficiency in the principal work done here, of cane-seating and basket-making, is very satisfactorily proved by a certificate of award granted to the Home by the Centennial Commissioners, for that class of articles, exhibited in the Woman's Department. It is a pleasant feature of the report of a benevolent society that its main duty is to record successes, and return thanks for kind offices received in the exercise of its functions. As an instance of the first, we would state that among those who have lately been occupants of the Home, Jennie Robinson has been much relieved from the pain of her malady at the Hospital, and during a short stay, was taught the art of cane-seating; and now from her home in the West to which she has returned, sends back her grateful acknowledgment of the benefits here received, having been thus enabled to

earn her living, and freed from a condition of dependence, which in her state of blindness, would be specially distressing. The skill of medical gentlemen has been constantly and kindly exerted in behalf of the sick of the Institute, and the thanks of the Managers earned by the labors of Drs. Dixon and Hornor. The first as a constant visitor, and the second as consulting physician, have rendered most valuable services to the inmates of the Home, and are hereby tendered the warm thanks of the Managers.

Still further there follows the pleasant duty of acknowledging the receipt of a donation of \$2000, from one of the heirs of Miss Catharine A. Sharp, generously bestowed in fulfilment of the known wishes of the deceased, though not expressed in any legal document.

We have also to express our thanks for a generous donation of \$1500 from the estate of Mr. Charles M. Eckert, deceased, a minor, in accordance with his request to his mother, to distribute a certain sum of money among such objects of charity as she in her judgment might think proper. We must also make our acknowledgments to Mr. Gutekunst for the very handsome picture of Mrs. Erskine, which adds one more to the many acts of kindness by which he expresses his interest in the Home.

After all these pleasant statements, the benevolent aiders of the charity will be prepared to hear that the number of beneficiaries is so rapidly increasing, that larger accommodations will soon be needed, and be ready to acknowledge their obligation to increased efforts to promote its usefulness.

We have, with great regret, to record the death of two of our Managers within the last few months. Miss O'Neill, our first loss, was one of the original members of the Board, and was the first President; since then, Mrs. William Montelius has been taken from us, and in her we mourn a most efficient member, and earnest well-wisher for the success of the Home.

The resignation of our President, Mrs. Van Harlingen, remains to be added to this list of our losses, and our regret

is only relieved by the reflection that the Society, though deprived of her superintendence, will not want her sympathy and interest.

THE INDUSTRIAL DEPARTMENT.

The present number of inmates is 29. A large and pleasant work-room is provided for their use, and the long list of work accomplished shows how industrious they have been. The working hours are from 8½ A. M. to 12 M., and from 1 to 4½ P. M., except on Saturday, when they do no work in the afternoon. They are allowed to work in the evening, and a separate account of that is given. This evening work is sold for their benefit, and \$162.37 has been paid to them as the result of their extra exertions during the past year. During the summer, any who wish are allowed to visit their friends and relations, the Managers in some cases giving them pecuniary assistance in so doing, thus enabling them to enjoy better health than a continued residence in the city would allow.

Annual Meeting.

The Ninth Annual Meeting of the members of the Pennsylvania Industrial Home for Blind Women, was held May 4th, at 4 o'clock. Gov. Pollock was in the chair. The minutes of the last meeting were read and adopted, and the reports of the Secretary and Treasurer accepted and ordered to be printed. All vacancies in the Board were filled, and many former Managers reelected. It was moved, that, in consideration of the increasing need of larger accommodations to meet the demands on the Institution, a Committee of three gentlemen be appointed by the chair, to ascertain if some adjacent property could be procured for the purposes of enlargement.

The chair nominated Dr. Harris and Messrs. Knowles and Chapin, and Dr. Henry was added.

It was also suggested that an entire change of location to a less restricted situation would be desirable, as in that case ground might be procured at a slight expense, and larger provision made, thus adding to the facilities for doing good. This matter will be reported upon by the Committee at the next Annual Meeting.

Gov. Pollock then closed the meeting with a few appropriate remarks.
